

Legal Risk Analysis Report

Document: VLED-INT-06-26-3577-Soureen_Majumder (1).pdf | Words analysed: 333 | Generated: 23 Jul 2026, 15:20

HIGH RISKS	MEDIUM RISKS	LOW RISKS
4	5	3

1. ● HIGH RISK

FLAGGED CLAUSE

■ *read and accept the Participation Agreement (Terms & Conditions)*

WHY IT'S A RISK

The full Terms & Conditions are not included in this document and are hosted externally at samagama.in, meaning the intern is agreeing to unseen terms that could contain unfavourable clauses.

SUGGESTION

Download and thoroughly read the full Participation Agreement before signing; request a copy in writing and do not accept until all terms are reviewed.

2. ● HIGH RISK

FLAGGED CLAUSE

■ *Your name will be on the commits*

WHY IT'S A RISK

There is no explicit IP ownership clause clarifying whether the intern retains any rights to their work or whether all contributions are exclusively owned by VLED Lab/IIT Ropar.

SUGGESTION

Ask for a written clarification on IP ownership before accepting; ensure the agreement states clearly whether you retain any rights or attribution beyond commit history.

3. ● HIGH RISK

FLAGGED CLAUSE

■ *sign and upload the Honor Code*

WHY IT'S A RISK

The Honor Code is referenced but not provided in this document, meaning the intern is committing to obligations without knowing their scope or consequences of violation.

SUGGESTION

Request and review the full Honor Code before signing; check for any penalties, restrictions, or obligations it may impose beyond what is stated in this letter.

4. ● HIGH RISK

FLAGGED CLAUSE

■ *participation in this programme is conditional on the maintenance of professional conduct*

WHY IT'S A RISK

'Professional conduct' is vague and undefined, giving the organiser unilateral and subjective power to terminate the internship without clear or objective criteria.

SUGGESTION

Request a written definition of what constitutes a breach of professional conduct and ask what the process is before termination, including any right to appeal or cure.

5. ● MEDIUM RISK

FLAGGED CLAUSE

■ *working on problems that are active, consequential, and publicly accessible*

WHY IT'S A RISK

Contributions to live, publicly accessible open-source repositories may carry liability if errors are introduced into consequential systems, and the document does not limit the intern's liability.

SUGGESTION

Ask whether there is any indemnification or liability protection for interns in the Participation Agreement, and confirm the extent of your personal responsibility for errors.

6. ● MEDIUM RISK

FLAGGED CLAUSE

■ *programme schedule, and all operational details will be covered in the program FAQ at samagama.in*

WHY IT'S A RISK

Key programme details are stored on an external website which can be modified unilaterally at any time, meaning the intern's obligations could change without formal notice.

SUGGESTION

Download and save a copy of the FAQ immediately upon acceptance and request that any material changes to programme details be communicated in writing.

7. ● MEDIUM RISK

FLAGGED CLAUSE

■ *Phase wise progression of the internship*

WHY IT'S A RISK

Phase-wise progression implies the intern may be removed at intermediate stages, but no criteria, notice period, or appeal mechanism for phase-based elimination is defined in this letter.

SUGGESTION

Ask for written criteria governing phase progression and what recourse or notice you are entitled to if you are not selected to continue to the next phase.

8. ● MEDIUM RISK

FLAGGED CLAUSE

■ *together with the program FAQ at samagama.in*

WHY IT'S A RISK

Incorporating an online FAQ by reference into a binding acceptance constitutes a unilateral modification risk, as the FAQ can be updated without the intern's consent.

SUGGESTION

Request that a version-controlled or dated copy of the FAQ be formally attached to your agreement so that only the version you reviewed is binding.

9. ● MEDIUM RISK

FLAGGED CLAUSE

■ *log in to your dashboard at samagama.in within 5 days*

WHY IT'S A RISK

A 5-day acceptance window is short and may not provide adequate time to review all referenced documents, especially the unseen Terms & Conditions and Honor Code.

SUGGESTION

Request an extension of the acceptance deadline to allow sufficient time to review all documents; flag this to the organiser immediately upon receipt.

10. ● LOW RISK

FLAGGED CLAUSE

■ *No email reply is required*

WHY IT'S A RISK

Limiting acceptance to a single online platform with no email confirmation creates a risk of technical failure or disputes about whether acceptance was validly completed.

SUGGESTION

Take screenshots of all completed steps on the dashboard as proof of acceptance and save any confirmation emails or receipts generated by the platform.

11. ● LOW RISK

FLAGGED CLAUSE

■ *internship period is from 22/06/2026 to 22/08/2026*

WHY IT'S A RISK

There is no mention of any stipend, compensation, or expense reimbursement, which should be confirmed before accepting to avoid ambiguity about the unpaid nature of the role.

SUGGESTION

Confirm in writing whether any stipend or reimbursement is offered and ensure this is documented, as the offer letter is silent on remuneration.

12. ● LOW RISK

FLAGGED CLAUSE

■ *you will not be a background trainee completing exercises*

WHY IT'S A RISK

Framing the intern as an 'assigned contributor' on a live repository rather than a trainee could blur the line between intern and employee, with potential implications for rights and obligations.

SUGGESTION

Confirm your legal status as an intern and not an employee or contractor, and ensure the Participation Agreement reflects this to protect both parties.
