

Legal Risk Analysis Report

Document: VLED-INT-06-26-3577-Soureen_Majumder.pdf | Words analysed: 333 | Generated: 23 Jul 2026, 18:09

HIGH RISKS	MEDIUM RISKS	LOW RISKS
4	4	3

1. ● HIGH RISK

FLAGGED CLAUSE

■ *read and accept the Participation Agreement (Terms & Conditions)*

WHY IT'S A RISK

The full Participation Agreement is not included in this document and is hosted externally at samagama.in, meaning the intern is accepting unknown terms that could contain unfavorable clauses on IP, liability, or conduct.

SUGGESTION

Request a complete copy of the Participation Agreement before signing; do not accept an offer that incorporates external terms you have not yet reviewed.

2. ● HIGH RISK

FLAGGED CLAUSE

■ *sign and upload the Honor Code*

WHY IT'S A RISK

The Honor Code is not provided here; signing the acceptance binds the intern to its contents without the opportunity to review obligations, restrictions, or penalties it may impose.

SUGGESTION

Obtain and review the full Honor Code before signing the acceptance; note any clauses related to conduct penalties, non-disclosure, or IP assignment.

3. ● HIGH RISK

FLAGGED CLAUSE

■ *Your name will be on the commits*

WHY IT'S A RISK

Contributing to a live open-source repository means your code is publicly associated with you, but there is no clause specifying who owns the intellectual property — the intern or VLED Lab/IIT Ropar.

SUGGESTION

Seek explicit written clarification on IP ownership of all contributions made during the internship before committing any code to the repository.

4. ● HIGH RISK

FLAGGED CLAUSE

■ *I have read, understood, and accepted all terms, conditions, and obligations set out in this offer letter, the Participation Agreement...and the Honor Code, together with the program FAQ at samagama.in*

WHY IT'S A RISK

The acceptance clause binds the intern to four separate documents (offer letter, Participation Agreement, Honor Code, and FAQ), most of which are not provided, creating a blanket acceptance of unknown obligations.

SUGGESTION

Insist on receiving all referenced documents simultaneously before signing; never sign a blanket acceptance that incorporates documents you have not read.

5. ● MEDIUM RISK

FLAGGED CLAUSE

■ *participation in this programme is conditional on the maintenance of professional conduct in all interactions*

WHY IT'S A RISK

'Professional conduct' is vague and undefined, giving VLED Lab unilateral discretion to terminate the internship for subjectively interpreted behaviour without clear standards or a fair process.

SUGGESTION

Ask for a written definition or examples of what constitutes a breach of professional conduct and whether there is a warning or appeals process before termination.

6. ● MEDIUM RISK

FLAGGED CLAUSE

■ *Phase wise progression of the internship, programme schedule, and all operational details will be covered in the program FAQ at samagama.in*

WHY IT'S A RISK

Key operational terms — including phase progression criteria, schedule, and deliverables — are deferred to an external FAQ that can be updated unilaterally, effectively allowing one-sided modification of program terms.

SUGGESTION

Request a static, dated copy of the FAQ and ask whether VLED Lab can modify it during the internship period without notice or consent.

7. ● MEDIUM RISK

FLAGGED CLAUSE

■ *log in to your dashboard at samagama.in within 5 days and complete all three steps*

WHY IT'S A RISK

A 5-day window to review and accept multiple external documents (Participation Agreement, Honor Code, FAQ) is very short, pressuring the intern to sign without adequate time for legal review.

SUGGESTION

Contact VLED Lab to request an extension of the acceptance deadline so you have sufficient time to review all incorporated documents thoroughly.

8. ● MEDIUM RISK

FLAGGED CLAUSE

■ *working on problems that are active, consequential, and publicly accessible*

WHY IT'S A RISK

Contributions to a live, publicly accessible repository could expose the intern to reputational or legal risk if code is later found to have errors or licensing issues, yet no indemnification or liability protection for the intern is mentioned.

SUGGESTION

Confirm in writing that VLED Lab/IIT Ropar will indemnify interns against any third-party claims arising from contributions made under supervision during the programme.

9. ● LOW RISK

FLAGGED CLAUSE

■ *This offer is based on your performance in our rigorous evaluation process.*

WHY IT'S A RISK

No stipend, compensation, or benefits are mentioned anywhere in this offer letter, leaving the intern without any documented financial entitlement for the two-month period.

SUGGESTION

Confirm in writing before accepting whether this internship is paid or unpaid, and if paid, document the stipend amount, payment schedule, and reimbursement terms.

10. ● LOW RISK

FLAGGED CLAUSE

■ *internship period is from 22/06/2026 to 22/08/2026*

WHY IT'S A RISK

There is no early termination clause defining notice periods or consequences if either party ends the internship early, leaving the intern without protections or clarity if the engagement is cut short.

SUGGESTION

Request a clause specifying minimum notice periods and any obligations (e.g., completion of deliverables, return of materials) in the event of early termination by either party.

11. ● LOW RISK

FLAGGED CLAUSE

■ *No email reply is required.*

WHY IT'S A RISK

Acceptance is processed entirely through a third-party platform (samagama.in), meaning the intern retains no independent record of acceptance unless they manually save documents, creating a record-keeping risk.

SUGGESTION

Download and save dated copies of all documents uploaded and accepted on the platform, and take screenshots of confirmation pages as personal proof of the terms accepted.
